Traffic Safety Checkpoints Scheduled for Two Weeks

On Saturday, July 18, Prichard Police will begin routine safety checkpoints as part of a two-week citywide traffic enforcement campaign. The checkpoints will be conducted during the morning and evening hours in various areas of the city.

The goal of the traffic safety checkpoints is to promote seatbelt use and to ensure that motorists are obeying traffic laws. Police officers will be on the lookout for drivers and passengers who are not buckled up and for children riding not properly restrained. Officers will also be checking for improper tags, driver's license, vehicle registration and insurance.
